

Aliens iOS Code Test

Requirements :Create a small app to display the news with Reader View (Refer to smartnews mobile app SmartView function - screenshot below)

Use these URLs below to display the news. (Show all news with List View)

-<https://cointelegraph.com/news/price-analysis-6-28-btc-eth-bnb-ada-doge-xrp-dot-%20uni-bch-ltc>

-<https://cointelegraph.com/news/binance-suspends-popular-fiat-ramp-for-u-k-%20customers-amid-regulatory-crackdown>

-<https://cointelegraph.com/news/active-bitcoin-miners-now-unlikely-sellers-thanks-to-%20profit-boost-data>

- Use Swift UI
- Allow users to touch an item of the list of news and show the news. (Show the news in App. Not open by web browsers)
- Allow users to enable/disable Reader View
- Submit with Github repo with full commits histories
